Company Profile

Africa Life Health Management Services

About Us

01

Africa Life Health Management Services Pty Ltd, based in Windhoek, Namibia, is a leading healthcare solutions provider incorporated in 2011. Specializing in consultancy services and the management of primary healthcare providers with limited management capacity, Africa Life Health Management Service offers a comprehensive suite of services including Health Consultancies, Health Facility Management, Health Education, Health Project Management, Pharmaceutical and medical supplies/products trading/distribution/exports/retail and Medical Tourism.

Vision

The vision of Africa Life Health Management Services reflects a bold and aspirational commitment to becoming a trailblazing force in healthcare innovation and a preferred solution provider across the African continent.

Mission

Drive digital and innovative health solutions in Africa through strategic partnerships with global players and collaborations with public and private stakeholders. Contribute to the achievement of post-2015 Sustainable Development Goals, particularly Goal 3, focusing on the health sector, using health technologies and innovations such as e-Health platforms and e-Procurement's.
Africa Life Health Management Services is dedicated to a mission that transcends conventional healthcare paradigms. Our commitment to driving digital and innovative health solutions in Africa reflects a vision of transformative change and sustainable progress. Here's an in-depth exploration of our mission.

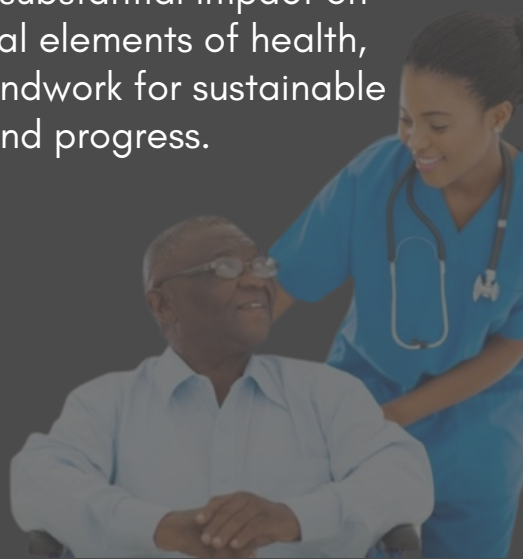
Why Us?

02

We recognize the dynamic nature of the healthcare landscape and the need for collaborative efforts to bring about meaningful change. By forming strategic partnerships with global leaders in health technology and collaborating with a diverse range of public and private stakeholders, we aim to leverage collective expertise and resources. These collaborations facilitate the exchange of knowledge, cutting-edge technologies, and best practices, fostering an environment conducive to innovation and efficiency.

Our mission aligns closely with the post-2015 Sustainable Development Goals, emphasizing our commitment to social responsibility and global development. Goal 3 specifically focuses on ensuring healthy lives and promoting well-being for all, a mission we actively champion. Through our initiatives, we contribute to reducing the global burden of disease, improving healthcare access, and enhancing the overall health and well-being of communities, in alignment with the SDGs.

Within the broader framework of the SDGs, our concentrated efforts are directed towards Goal 3, which addresses health-related challenges. This involves tackling issues such as communicable diseases, maternal and child health, and the overall improvement of healthcare systems. By strategically targeting Goal 3, we aim to make a substantial impact on the foundational elements of health, laying the groundwork for sustainable development and progress.



Why Us?

03

Central to our mission is the integration of cutting-edge health technologies and innovations. We recognize the trans-formative potential of e-Health platforms and e-Procurement's in revolutionizing healthcare delivery. E-Health platforms enable the seamless exchange of health information, remote consultations, and efficient data management, thereby enhancing the accessibility and quality of healthcare services. Additionally, e-Procurement's streamline the procurement process for healthcare supplies, ensuring a timely and cost-effective supply chain.

Our commitment to innovation is not just a strategic choice but a fundamental philosophy. We view innovation as the driving force behind sustainable progress in healthcare. By embracing emerging technologies, fostering a culture of creativity, and remaining adaptable to change, we position ourselves at the forefront of healthcare innovation in Africa.

Beyond the technological aspects, our mission recognizes the importance of community engagement. We aim to empower local communities by ensuring that the benefits of digital health solutions are accessible and understood. This involves targeted education, community outreach programs, and the integration of solutions that are culturally sensitive and responsive to the unique needs of diverse populations.

Values

04

Innovation

Innovation is at the core of our values, reflecting a commitment to constant improvement and the exploration of groundbreaking solutions in healthcare. We strive to be pioneers in adopting and developing cutting-edge technologies, methodologies, and approaches that push the boundaries of conventional healthcare practices. By fostering a culture of innovation, we aim to address complex challenges creatively, enhance the efficiency of healthcare delivery, and ultimately contribute to the advancement of the entire healthcare ecosystem.

Collaboration

Collaboration is more than a value; it's a guiding principle that underscores the importance of working together for sustainable health outcomes. We believe that meaningful change and progress in healthcare require collective efforts. By fostering partnerships with diverse stakeholders, including global players, local communities, public institutions, and private enterprises, we leverage a wealth of perspectives, expertise, and resources. This collaborative approach ensures that our initiatives are comprehensive, inclusive, and capable of making a lasting impact on the communities we serve.

Integrity

Integrity is the bedrock of our operations, reflecting a commitment to the highest ethical standards in all our endeavors. We conduct our business with transparency, honesty, and a steadfast adherence to moral and professional principles. Upholding integrity ensures that our actions align with the values we espouse, building trust among our stakeholders, partners, and the communities we serve. This unwavering commitment to ethical conduct is fundamental to the credibility and sustainability of our mission.

Values

05

Excellence

Excellence is not just a goal but a standard that permeates every aspect of our work. We are dedicated to delivering superior services and outcomes in all our endeavors. This commitment to excellence encompasses the quality of our consultancy services, the efficiency of healthcare facility management, the impact of health education initiatives, the success of health-related projects, and the seamless experience we provide in medical tourism. By setting high standards and continuously striving for improvement, we ensure that our contributions to healthcare are characterized by excellence.

Community Focus

At the heart of our values is a profound commitment to the well-being of the communities we serve. Our initiatives and services are designed with a deep understanding of the unique needs and challenges faced by local populations. By prioritizing community focus, we actively engage with and listen to the people we aim to support. This approach ensures that our solutions are contextually relevant, culturally sensitive, and contribute directly to the improvement of overall community health. Our commitment to community focus reflects a dedication to making a positive and meaningful impact on the lives of individuals and families.

Company Structure

06

Africa Life Health Management Services Pty Ltd operates under the guidance and leadership of a dedicated management team:

- **Dr. Bernhard Haufiku: Managing Director**

- **Ms. Rosaline Nakale: Director**

Company Structure

07

Dr. Bernhard Haufiku - Visionary Health Leader

Dr. Bernard Shidute Haufiku is a transformative leader and public health expert with an illustrious career spanning 25 years. As the Founder and current Chairman of Africa Public Health Foundation, he has demonstrated his commitment to advancing public health on a continental scale.

In his role as Chairman of the APHF Council, Dr. Haufiku oversees a charitable entity with a budget of US $27 million, serving as a resource mobilizing arm for the Africa Center for Disease Control (A-CDC). His leadership at the Africa Public Health Foundation showcases his dedication to philanthropy and resource mobilization in support of public health initiatives.

Dr. Haufiku's previous roles as a special advisor to the Namibian Presidency on Health and Minister of Health and Social Services underscore his transformative impact on the Namibian healthcare landscape. Notable achievements during his tenure include the signing into law of the Public and Environment Health Act and Namibia becoming the first country in Africa to achieve the UNAIDS 90/90/90 HIV treatment targets in 2018.

His global recognition is evident in his role as a member of the WHO Executive Board in 2015/16 and as a special resource person to UNAIDS Program Coordinating Board (PCB). Dr. Haufiku's leadership in the HIV response has garnered him international acclaim, making him one of the three final candidates out of over 200 applicants for the UNAIDS Executive Director position.

Dr. Haufiku's educational background includes training as a Physician from the University of Witwatersrand, Johannesburg, South Africa, Anesthesiology from the College of Medicine of South Africa, and Public Health Leadership at Harvard University in Boston, USA. His pursuit of a Master in Public Health at the London School of Hygiene and Tropical Medicine further demonstrates his commitment to continuous learning and staying at the forefront of public health leadership.
